**Test Examination Report**

|            |               |        |          |
|------------|---------------|--------|----------|
| Name       | Pankaj Prasun |        |          |
| Case No    | 1512962       | Emp No | 67551736 |
| Birth Date | 04 Oct 1981   | Gender | M        |

|           |                          |           |                 |
|-----------|--------------------------|-----------|-----------------|
| Test      | <b>Haematology (CBC)</b> |           |                 |
| Exam Date | 19 Nov 2019              | Repo Date | 19 Nov 19 10:43 |

| Parameter       | Result       | Remark | Biological Reference Interval | Unit       | Test Method                              |
|-----------------|--------------|--------|-------------------------------|------------|--|
| DC              |              |        |                               |            |  |
| Haemoglobin     | 14.3         |        | 13 - 17                       | gm/dl      | Sls-Hemoglobin                           |
| RBC Count       | 5.50         |        | 4.5 - 5.5                     | mill/cu.mm | Hydrodynamic Focusing Dc Detection       |
| Total WBC Count | 9890         |        | 4000 - 11000                  | cu.mm      | Flow Cytometry Using Semiconductor Laser |
| Neutrophil %    | 57.1         |        | 50 - 70                       | %          | Flow Cytometry Using Semiconductor Laser |
| Lymphocyte %    | 26.4         |        | 20 - 40                       | %          | Flow Cytometry Using Semiconductor Laser |
| Eosinophil %    | <b>9.4</b>   |        | 1 - 6                         | %          | Flow Cytometry Using Semiconductor Laser |
| Monocyte        | <b>6.8</b>   |        | 0 - 4                         | %          | Flow Cytometry Using Semiconductor Laser |
| Basophil %      | 0.3          |        | 0 - 1                         | %          | Flow Cytometry Using Semiconductor Laser |
| Mid cell %      |              |        |                               |            |  |
| Platelet count  | 250000       |        | 150000 - 450000               | cu.mm      | Hydrodynamic Focusing                    |
| HCT             | 43.9         |        | 40 - 54                       | %          | Calculated                               |
| MCH             | <b>26.00</b> |        | 27 - 32                       | pico-grams | Calculated                               |
| MCHC            | 32.57        |        | 31.5 - 34.5                   | %          | Calculated                               |
| MCV             | <b>79.82</b> |        | 83 - 101                      | fl         | Calculated                               |
| RDW-CV          | <b>15.3</b>  |        | 11.6 - 14                     | %          | Calculated                               |
| AEC             | <b>930</b>   |        | 20 - 500                      | cu.mm      | Calculated                               |
| PDW             | 17.4         |        |                               |            |  |
| P-LCR           | 46.8         |        |                               |            |  |
| RDW-SD          | 43.8         |        | 39 - 46                       | fl         | Calculated                               |
| MCV/RBC Ratio * | 14.51        |        |                               |            |  |
